

New Election Plan Proposed For Agenda

Dormitory Residents Consider Amendment To Constitution

Members of the Agenda, honorary Dormitory Sophomore Society, were presented with a proposed constitutional amendment concerning the method of election to that body last night at the regular meeting of the Dormitory Committee.

Teddy Walkowicz, '41, introduced the motion to the effect that members of the present Agenda elect five men, the dormitory freshmen, Sophomores, and Juniors elect another five, and these ten complete their number by electing another five. This method of selecting succeeding Agendas was passed as a suggestion for the present Agenda to consider. No discussion at all accompanied the passing of this motion. The president of the Sophomore society indicated that this matter would be discussed by the group at their next meeting.

Assessments Mentioned

The question of assessments was barely mentioned as Professor Leicester F. Hamilton, Chairman of the Dormitory Board, expressed the desire that the dormitories as a whole would take this assessment in a co-operative manner.

Civil Service Jobs Will Be Offered College Juniors

Metallurgy, Statistics Courses Applicable To Institute Men

To make summer work available to college Juniors the United States Civil Service Commission is giving examinations for Junior Professional Assistants. Positions in the fields of Agricultural Economics, Agronomy, Animal Husbandry, Biology (wildlife), Economics, Engineering, Forestry, Geology, Home Economics, Horticulture, Metallurgy, Plant Pathology, the group of Public Administration, Political Science, History and Sociology, Range Management, Soils and Statistics are open to students who complete three fourths of their college training by July 1941.

The Engineering branch is open to all Juniors at the Institute, except architecture students. Certain of the courses such as Geology, Biology, Metallurgy and Statistics should be particularly adaptable to Technology students, while others would have little to offer the average Institute Junior.

Pay \$1,440 Yearly

The pay for the summer will be at the rate of \$1,440 a year and the positions will be permanently renewable, upon graduation, at the same rate. The men will be furloughed to finish their Senior year and will receive the Junior Professional Assistant's position when they graduate.

(Continued on Page 2)

Tech Bible Study Group To Meet Wednesday

A regular Wednesday afternoon meeting of the Technology Bible Study Group will be held on Wednesday, January 15, at 5:00 P.M. in Room 7-108. Professor Gedney of Gordon College will be the speaker. All those who are interested are invited.

No Sophomores March!! Col. Marsh Kills Rumor

A large number of pessimistic Sophomores can stop hunting for their black ties and M.S. shoes after Colonel Clarence Marsh exploded the wide spread rumor that the members of the class of '43 would be marching with the freshmen next semester. "That is absolutely untrue," claimed the officer when questioned by the Tech last night.

One change in dress for this coming semester is contemplated in the Junior ranks. It is thought that the shoulder straps for these men will be eliminated to differentiate between commissioned officers and R.O.T.C. Juniors.

Rocket Research Group Organizing Under A.S.M.E.

A Rocket Research Group will be organized at a meeting to be held at 5:00 P.M. Thursday, January 16 in Room 3-270. The meeting, sponsored by the American Society of Mechanical Engineers, is open to all students interested in rockets.

Topics to be discussed at this meeting will include the reasons for undertaking rocket research, the work done and the plans of the present group. In the future some faculty members will speak to the group.

Foreign Students Will Hold Dance In 5:15 Clubroom

Surprise For Future To Be Announced During Celebration

An informal dance will be held by the Technology International Club to wind up the Club's activities for the first term on Friday, January 17, from 8:00 to 12:00 P.M. in the 5:15 clubroom.

The club-members are requested to bring their own dates as none will be supplied by the Club. The club secretary, Paul C. Gomez, '42, stated that during the evening a statement would be made about a surprise for members in February. What the nature of the surprise was he refused to divulge.

The 5:15's Victrola will provide the latest styles of dance music. All students and their guests are welcome. The price of admission is fifty cents to all non-members. There is no charge for any of the members.

Naval Aviation Opens Positions

DeFlorez And Yarnell To Address Juniors, Seniors This Week

Juniors and Seniors interested in engineering and flying positions with the United States Navy will have an opportunity to learn next Thursday about the present program being conducted by the Navy. Commander deFlorez of the Air Corps will be at the Institute to meet those interested, on Thursday, January 16, from 12:00 to 1:00 P.M. and from 5:00 to 6:00 P.M. in Room 1-190.

Admiral Yarnell, former commandant of the Asiatic Fleet, will come to Technology some time this week with a staff of naval officers. After Admiral Yarnell speaks he and his aides will interview those Juniors and Seniors who are interested in entering the Navy, either as flyers or as engineers.

Flying Course Offered

Those who wish to enter as flyers will take a special 6-4 course in Aeronautical Engineering to be offered by the Institute next semester. This course will be offered as a professional elective and not as an overload subject. They will also be required to pass a special physical examination.

Those who enter as engineers will receive their commissions and enter active service at the naval air bases, at Washington and at the naval aircraft factories. Their jobs will involve the repair, testing, and specifications of aircraft, engines and flying equipment.

Medical examinations will be made available to those who are accepted by Admiral Yarnell's aides. Seniors will receive their commissions as Ensign Aviation Volunteer Specialist upon graduation. Juniors will be granted a probationary commission for a year until they graduate and then a permanent commission in the Naval Reserve.

A.I.Ch.E. Plans Trips

Two plant trips are planned by the American Institute of Chemical Engineers during the next week. A trip to Lever Brothers will leave at 2:00 P.M. today. On Monday, January 20, the society will go to the Colonial Beacon Oil Refinery at 1:45 P.M., returning at about 4:30 P.M.

Albert Clear Named As General Manager For 1941-'42 The Tech

Will Head Vol. LXI

Albert E. Clear, Jr., '42, new General Manager.

Lasell Glee Club Will Act As Host At Joint Concert

First Of Recital Series Scheduled January 17; Dance To Be Held

To Lasell Junior College at Auburndale will go the Technology Glee Club for a joint concert Friday night, January 17. The first of several concerts to be held with the Lasell songstresses, this one will be held at 8:30 P.M. Friday evening in Winslow Hall.

In accordance with the usual custom of concluding these joint concerts a dance has been planned for the members of both clubs. The M. I. T. Glee Club will go by bus and automobile to Auburndale. A future concert is planned with Lasell at Technology.

The program to be presented Friday night will include Bach's "Now Let Every Tongue Adore Thee"; "the Miserere Mei Deus" by Allegri; a German folksong, "Der Jager aus Kurpfalz" by Othehraven; "Onward, Ye Peoples", by the famed Finnish composer Sibelius; and a selection entitled "Jonah" which is said to be an example of modern rhythmic spiritual music.

Other Choices Are

Laffoon As Editor, Quinn, Man. Editor, Noyes, Bus. Manager

Albert E. Clear, Jr., '42, will head Volume LXI of The Tech, as General Manager for this coming year, it was announced last Saturday evening at this publication's annual banquet in Hotel Bellevue. Other members of the in-coming managing board are Carthrae M. Laffoon, Editor; John J. Quinn, '42, Managing Editor; and Jonathan H. Noyes, '42, Business Manager.

At this time fifteen members of the new Junior Board were also announced. They are Alexander H. Bohr, '43, Photographic Editor; Ira G. Cruckshank, '43, Associate Engraving Editor; Edward J. Czar, '43, Advertising Manager; Warren E. Foster, '43, Personnel Manager; William G. Loudon, '43, Recording Editor; Walter C. McCarthy, '43, Engraving Editor; John W. McDonough, Jr., '43, Circulation Editor; A. Donald Moll, '43, Treasurer; Bailey H. Niedar, '43, Sports News Editor; Harry Ottinger, Jr., '43, Sports Desk Editor; Robert P. Richmond, '43, News Editor; Stewart Rowe, '43, Features Editor; Robert J. Schaefer, '43, Desk Editor; S. Joseph

(Continued on Page 4)

Debating Society Beats Boston U.

Meet Sunday Repeats Previous Encounter On Same Subject

Beating Boston University for the second time this season, the Technology Debating Society continued its winning streak last Sunday night at the Old South Church. The B. U. team, apparently not satisfied with having been beaten twice, wants to arrange a third debate on the same subject, but the Technology team is anxious to extend their success to include more schools so a third debate is not likely to be held.

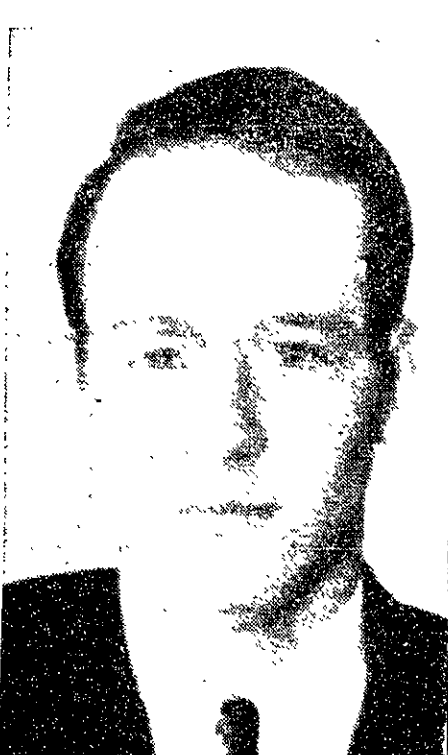

The Technology team, composed of Stanley Backer, '41, and George M. Musgrave, '43, took the affirmative side of the question, "Resolved: that the nations of the Western Hemisphere should form a permanent alliance or union for defense against foreign aggression." The decision was reached by combining the vote of the audience with the opinions of the two judges.

Camera Club Will Hear Merwin Horn Tomorrow

Speaking on "Aerial Photography" Mr. R. Merwin Horn from the Technology Photographic Service will address the M.I.T. Camera Club in Room 4-231 on Wednesday, January 15 at 5:00 P.M.

Mr. Horn, who assists Mr. Frank H. Conant, also from the Photo Service, will show Kodachromes which they took in the Cape Cod Canal area. Mr. Horn and Mr. Conant have taken many colored stills and moving pictures around Boston.

MEMBERS OF MANAGING BOARD FOR THE COMING YEAR

John J. Quinn, '42, Jonathan H. Noyes, '42, and Carthrae M. Laffoon, '42, who take charge of The Tech in this issue.

AGENDA — A CHALLENGE

As a direct outcome of the trouble in the dormitories last Field Day eve, a general assessment has been levied upon the entire undergraduate dormitory population to pay for the damages. In addition to this, Agenda has been given increased responsibility in the regulation of the freshmen and further moves have been made to change its set-up. The assessment was passed to pay for the damages and the Agenda changes were made in an attempt to help break the growing tendency toward destruction on Field Day eve thereby preventing future trouble. Last night at the Dormitory Committee meeting, a recommendation was made to have Agenda's membership partially elected by the freshmen, Sophomores, and Juniors in light of the increased control granted the honorary society.

This recommendation would have five members of Agenda selected by the three undergraduate classes, five by the society itself, and five by the above ten. In this manner, a compromise would be effected to Agenda which wants to continue the status quo in its method of elections and the Dormitory Committee.

Under the present organization, Agenda is purely an honorary society, being responsible only to the Institute Committee. However, because of the last Field Day rumpus, the Dormitory Committee voted Agenda further responsibilities, making it their duty to be at hand on Field Day eve to help maintain order. At the same time, all the errands were to be signed by the upperclassmen giving them, the Dormitory Freshman Committee chairman or Agenda as a body having the power to reject any unreasonable demand. All errands that would break the law were prohibited.

Further than this, Agenda technically has no control over freshman-sophomore relations, the Dormitory Freshman Committee having the legal authority. At this point practice departs from theory. Over a long period of time, Agenda has built up the tradition that it is the regulating body in freshman affairs. In accordance the Freshman Committee has gradually relinquished its control until at present its main concern is a brief welcome and a dormitory freshman dance in the fall.

Agenda feels that it should be given complete control over the freshman activities because of their close connection and interest in that class. However, they oppose any change in their election methods.

In view of the prevailing arguments by both sides, we wish to outline a possible organization that would tend to make a more efficient organization of Agenda, and also fix the responsibility for the freshman-sophomore activity, both at Field Day and during the year.

Agenda should be given full control of freshman activities in the dormitories. This would eliminate the Freshman Committee, Agenda taking over their duties such as they may be. By this Agenda would also be given a voting seat on the Dormitory Committee. Agenda should have a regular budget, run the freshman dances, handle cases of reprimand, bolster dormitory spirit, and officiate on Field Day eve.

In order to give continuity, the president of Agenda should continue as chairman of the society's freshman relations in a similar manner that the vice-president of the Junior class is a member of the freshman council.

Because of these broadened powers, the members of the class to be represented by Agenda should have a part in the elections. Ten members of the freshman class should be elected by that class at the end of the second term. These ten would then appoint five more members of their class. The retiring members of Agenda should be afforded the opportunity to submit nominations for the ten elected by the freshman class, further nominations from the freshman class as a whole being in order.

In this way, one organization of interested members would be given full control and responsibility of the freshman relations, and the class as a whole would have a choice in its representatives.

However, since only the Institute Committee or Agenda itself can make any changes in its constitution, Agenda will have to show its earnestness in its desire to accomplish something by giving up a few rights to gain worthwhile objectives.

Getting the Right Job

This is the fifth and final article in The Tech's series aimed toward helping Technology men to obtain the jobs for which they are best fitted.

Interviews by the press or radio are usually one-sided affairs in which a reporter fires questions at the man of the hour who tries tactfully to answer or not to answer the questions. Interviews for jobs are emphatically not one-sided unless the interviewer is poor or the interviewee is unprepared.

To go back to our sales analogy, interviews are nothing more than talks between buyers who are usually looking for a particular type of man to fill a particular job and salesmen who are trying to sell a particular product for one or more of its best-adapted uses. The salesman who is prepared is the one with the best chance to sell.

Put Yourself in His Position

One of the best ways for you to find out what the interviewer wants to know is to put yourself in his position. What would you want to know if you were hiring a man for the job you want? How would you go about finding out the answers? What do interviewers and personnel men write and say about interviews?

Remember that the interviewer can find out all the facts about your scholastic record and many of the facts concerning your extra-curricular activity from official sources far better than from your testimony. Therefore, a good interviewer asks few questions of fact (which require no thought) and many questions of opinion (which do require thought). He is usually testing your ability to think, your ability to make practical application of the theory you have learned, your ability to handle people, your business judgment, your reasons for wanting to work for his company, and your imagination. He will ask you one question while looking for the answer to another. It is bad business to answer one of his questions incorrectly because somewhere in the course of the interview, he is almost bound to catch you—and no business wants a dishonest, disloyal, or unreliable man.

To Sum Up

The interview is the last step to getting the job. The best preparation for it is good preparation for the job itself. Know yourself, know the job, and know the circumstances under which you live. No interviewer or no job for which you are fitted can ask for more.

Adams Will Speak To Math Society

Mr. Douglas P. Adams, of the section of Graphics, will speak to the M.I.T. Mathematical Society on Tuesday, January 14 at 5:00 P.M. in Room 2-151. Mr. Adams will speak on "The Nomographic Chart", explaining the theory and construction of charts and their practical uses.

The Greater Boston Mathematics Clubs Association will hold their semi-annual meeting in Room SS of the Science Building of Boston College on Wednesday, January 15 at 7:30 P.M. The principal speaker, Professor Harold A. Zager of Boston College, will address the group on "Determinants of the Third Order".

Official Notice

Registration material for next term must be returned to Room 3-107 before 1 p.m., Friday, January 17, to avoid the fine of \$5.00. Students should deliver this material directly to Room 3-107.

Civil Service

(Continued from Page 1)

These positions lead to advancement to the professional service.

Applications for the examination should be filed with the United States Civil Service Commission, Washington, D.C., not later than January 20. The blanks may be secured at the United States Civil Service district office in the Post Office and Court House building in Boston. The applicants must be United States' citizens.

45 Students Confined To Infirmary

Emergency Wards Handle 24 Extras In Grippe Epidemic

With a city-wide grippe epidemic in full swing and the peak not yet in sight, forty-five students are overflowing the facilities of the Homburg Infirmary. Besides the original fifteen beds in the third floor of the infirmary, nine more have been set up in an emergency ward in the building, and about fifteen more in the Emerson Room in the Architecture Building.

Besides this record number of patients in the Infirmary, over two hundred cases are being treated in the clinic every day. The Boston Health Council has recognized the existence of a grippe epidemic in the metropolitan area, and urges extreme caution on the part of those who feel any illness whatever.

Advices Against Self-treatment

All Tech students are asked to come to the infirmary at the first sign of the grippe for treatment, and not try to cure themselves by staying at a fraternity house or the dormitories, according to Dr. Harland F. Lancaster of the Infirmary staff.

The grippe epidemic which is covering the city promises to be one of the worst of recent years. The rate of occurrence of new cases is still rising.

Junior-Senior Football Approved For Next Fall By Advisory Council

Coach Hunt And Squad Plan For Big Season Of Six Or More Games With Early Practice

With the approval by the Advisory Council on Athletics of another season of Junior-Senior football at its meeting last Tuesday evening, Coach Hunt and the gridiron squad are making active plans for next fall. The Council emphasized the fact that the team may not be designated as a varsity squad, and passed a provision preventing the formation of a varsity football team for the coming year.

Practice Begins Early

Coach Hunt announced that grid practice will begin on September 15. For the first game of a six or seven game schedule to be held on October 11, the team would be in good condition. As tentatively arranged the pigskin aggregation will travel to Lowell Textile on the eleventh, and meet Hyannis State Teachers, Fore River Apprentices, Tufts Junior Varsity, and Wentworth Institute on successive Saturdays. The site of these games will alternate between the home field and that of the opponents. The opponents for the last two games will be chosen from among the New Hampshire, Harvard Jayvee, and Boston University freshman elevens.

Big Turnout Wanted

"All fellows who ever played,
(Continued on Page 4)

Track Men Score In V. F. W. Meet

Jester Takes Third In Hurdles; Quackenbos Places In Three Mile

Two Technology trackmen scored in the New England A.A.U. Championships Saturday night as the 1941 American indoor track season opened with the third annual running of the Veterans of Foreign Wars Meet in Boston Garden.

Captain Lewis T. Jester, Jr., '41, captured third place in the 45 yard high hurdles among a crack field headed by Hall of Tufts, the winner in world record time of 5.7 seconds. Harrie M. Quackenbos, Jr., graduate student from London who has been training under Coach Oscar Hedlund for the past year and a half, stayed up front in the three-mile grind to turn in a splendid third place performance.

First Indoor Meet

The V. F. W. meet was the first in the regular series of American indoor meets which continues in Boston with the Knights of Columbus Meet January 25th; moves to Madison Square Garden in New York February 1 for the Millrose Games, returns to Boston the following Saturday for the 51st running of the Boston A.A. Games; and finally concludes in New York with the final IC4A Championships on March 1.

Tech's varsity and freshman relay teams are entered in all the Boston meets, while the varsity also makes the trip to Millrose in New York.

Jan. 17 Is Deadline For P. T. Substitution

All freshmen wishing to substitute a sport for Physical Training next semester must signify to that effect by signing up in H. P. McCarthy's office before noon this Friday, January 17. Men who have taken P.T. this term may substitute a sport next term.

Most of the sports welcome freshmen who have not turned out before. Oscar Hedlund, track coach, has extended an invitation to all freshmen to turn out for track or field next term whether they have had any previous experience or not. **REMEMBER, FROSH, SIGN UP BEFORE FRIDAY NOON.**

Trinity, Wesleyan Drown Swimmers In Home Meets

400 Relay Decides Friday's Encounter For Trinity, 44-31

Tech mermen dropped a close meet to the Trinity swimming squad last Friday evening, 44-31, and then went down to defeat again on Saturday afternoon at the hands of the Wesleyan outfit 61-14. In the Trinity meet, the home team needed the seven points from the final 400 yard relay to win, but were unable to snatch a win from the record-breaking Trinity squad.

Led by Champion Dave Tyler

Trinity broke three of its own school records during the course of the meet. The 220 yard freestyle record fell, as did the 100 yard freestyle, and the 400 yard freestyle relay. Captain Dave Howard, '41, won the 440 yard freestyle for Tech and John Sexton, '41, and Frank J. Jerome, '41, took first and second places respectively in the diving contests. William G. Denhard, '42, took first in the 50 yard freestyle, and Earl L. Bimson, '43, placed second.

Fencers Open Against Bowdoin

In their first meet of the season the fencers will meet Bowdoin this Thursday evening in the Walker Gym. The Engineers are highly favored, but unfortunately lack practise.

In their initial meet of the season, the Tech fencers will encounter the swordsmen from Brunswick. The meet is scheduled to start at 8:00 P.M. Thursday, but the time will probably be changed to 7:00 P.M.

The team fencing for M.I.T. will be essentially the team which enjoyed a highly successful season last year climaxed by winning a close match with Harvard 14-13.

The probable Beaver lineup is Foil — Sherburne, Ackerman, Coleman, maybe Adelson; Epee—Krieger, Kellogg and Scharff; Saber—Adelson, Hinchman and Nowak.

Quintet Falls Before Brown

Bruins Hit Stride To Wallop Tech By 50-33 Score

Suffering their worst defeat of the present season, Beaver hoopsters left the Brown court last Friday on the low side of a 50-33 tally. The defeat was due to lack of condition, says Coach McCarthy.

The Bruins never surrendered the lead which they took at the very outset. For the first time this year, they displayed the form which had caused pre-season prognosticators to predict another New England championship for them.

Samuels High-Scorer

"Howie" Samuels of M.I.T. in spite of sickness, recovered sufficiently to be high scorer of the game, sinking four field goals and four foul shots. Leading point-getter for the home team was "Tank" Wilson, who netted five field goals. For the first time this year all the Tech substitutes played a substantial portion of the game.

Coach McCarthy says that the defeat was due to the fact that the Beavers were out of condition. Jack Whelan and Jerry Coe of the varsity were too sick with the gripe to play in the game. Although Samuels was well enough to play he had just recovered from a similar case. Other players had been unable to practise regularly. This fact accompanied by the fact that the Brown court is much larger than the one (used by the Beavers) in the Hangar Gym accounted for the defeat, according to the Coach.

Next Game

The freshmen were also beaten by
(Continued on Page 4)

Squash Team Drops 4-3 Match To Amherst

By the slim margin of one set, the Institute squash squad dropped its match to Amherst, 4-3, on Saturday, January 11, and just missed copping its fourth win of the season.

The three Beavers who won their sets were Jack Sheetz who won three games and lost one, Alex Oszy who won three straight, and Louis Stouse who took three games and dropped one. The remaining players, Captain Phil Freeman, Jim Mar, Chet Corney, and Jacques Shaw all were defeated by only a few points in each set.

The Sophomore team met the Union Boat Club "Whites" at M.I.T. Friday afternoon, January 11, and were defeated by one point, 3-2. Ben Halpern and John Gunther scored the Cardinal points.

Pucksters To Meet Northeastern After 1-0 Loss To Middlebury

Technology's hockey team will open its home stay at eight o'clock tonight at the Boston Arena in the second half of a New England Intercollegiate Hockey League doubleheader against Northeastern University. The feature attraction will be an embroglio between two deadly rivals when Boston College defends its first place position against Boston University.

On Saturday the Beavers were upset by a Middlebury team which the Techmen had underrated. The Vermont college triumphed by the score of 1-0 as the Tech attack fizzled. The game was marked by a series of fights, one involving a group of spectators.

Sage's Loss Felt

The faults in the Tech offense will

undoubtedly be shown tonight in the Wildcat match. Nat Sage's loss is probably one of the main reasons for the below normal showing of the Beaver's attack.

Northeastern Favored

Northeastern has suffered a tremendous blow in personnel since its early season victory over the Beavers. It has lost for the season the services of its star wing, Ed Barry, who is in the scholastic doldrums. He was outstanding in the 14 to 2 drubbing handed the Techmen back in December. Despite his loss, however, Northeastern has played above par hockey and is highly favored in tonight's contest.

The average student looks on tutoring as a means of pulling himself out after falling into a scholastic ditch. But tutoring is also an effective means of preventing the disaster—and it is much easier to stay out than to climb out. Our specialized supplementary instruction will help you get more out of your courses thus benefitting your rating. You will also be able to save considerable time which is an unpurchasable commodity none too plentiful with Tech men. We can help you put your study hours to the best use by pointing out the important parts of the course, explaining the hard points and showing you how to solve problems. Where can you buy better protection for the investment you are making in your education?

Tech Hobby Shop Exhibits Photos

45 Pictures Entered In Second Contest; Prizes Awarded Jan. 16

Some forty-five pictures, entered in the Second Annual Photo Contest of the M. I. T. Hobby Shop which closed yesterday have been placed on exhibit in the galleries of the Tech Photo Service, in the basement of Building 11.

As a result of an Institute-wide contest about half of the entries were submitted by non-members of the Hobby Shop, the rest were the work of regular members. The pictures will be on display for several days and on Thursday, January 16, judges in the contest, Professors John T. Rule of the section of Graphics; Frederick G. Fassett, and Harold E. Edgerton, of the Electrical Engineering Department, will award prizes to the successful entrants.

Basketball

(Continued from Page 3)

the Brown yearlings by 48-23. Bill Abbott, high scorer of the Beaver youths, hooped six points. The next varsity game is scheduled for the Hangar Gym with Williams for Friday at 8:00 P.M.

Eleven Beaver players got into the game a departure from the usual custom. The statistics on the team follow:

	Fouls Made	Field Goals	Points
Samuels	4	4	12
Dolan	2	2	6
Hillhouse	0	0	0
Conti	0	0	0
Campbell	0	0	0
Marakas	3	0	3
Glick	1	2	5
Brodie	0	0	0
Artz	2	1	4
delValle	0	0	0
Pease	3	0	3
	15	9	33

Score at end of half: Brown 27; Tech 11.

Football

(Continued from Page 3)

wanted to play, dreamt of playing, or think they can play are invited to turn out," by Coach Hunt. He went on to say that the main stress will be placed on learning fundamentals, and with such an extensive schedule, every man who comes out regularly will get a chance to play a great deal of intercollegiate football. The squad's equipment is good, and members are hoping to get more, especially some tackling dummies.

Another thing sought by the squad is a name. The cognomen must indicate that the team is from Technology and also show that it is not the varsity. Joseph H. Myers, '41, president of the M.I.T.A.A., says that all suggestions may be submitted to the A.A. offices in Walker Memorial.

The Tech

(Continued from Page 1)

Tankos, Jr., '43, Associate Features Editor; John F. Tyrell, '43, Staff Editor.

Members of The Tech and their guests, numbering approximately 65, heard Stanley G. H. Fitch '00, member of the Advisory Council on Publications, relate some of the more interesting experiences he enjoyed as a member of The Tech staff. The guest speaker emphasized that it was often better to "take the bull by the horns" and clear up any situation that might cause ill-feeling later. Frederick J. Fassett, editor of the Technology Review, and also member of the Advisory Council on Publications, spoke briefly to the group and congratulated those men elected that evening to positions on the paper.

New Boards Announced

Following the dinner and the announcement of the Junior Board elections, the outgoing members of the Managing Board introduced the men who would take over their work during the coming year. Harold E. Dato, '41, toastmaster for the evening, outlined the accomplishments of Volume LX of The Tech, as expanding the photographic department, the installation of a new engraving plant, the building of a new dark room, the publication of a special Field Day issue, and a 12 page, 8,000 circulation, Open House number.

The new General Manager, Albert Clear, becomes the first man in recent years to reach this position by way of the business office, having served this past year as Personnel Manager. He was graduated from Phillips Exeter before entering the Institute in the fall of 1938. While at Technology, Clear has served on the Freshmen Council, the Sophomore Dance Committee and as Secretary of Gridiron Society.

Outing Club Men Go Skiing Overnight

With plenty of snow in the mountains, ten Outing Club members will go on an overnight ski trip to the Gilford-Laconia area on Saturday, January 18. Led by James W. Neighbors, G, the group will go by auto to the Gilford Youth Hostel, where a chair, two tow ropes, open slopes and

jumps provide good facilities for skiing.

The club's pass limits the group to ten, but anyone who can obtain an individual pass is welcome. The members will do their own cooking and bring their own blankets. One group will leave in the morning, while the other will leave at 1:00 P.M.

Plans for Mid-Term Outings

At least three trips are being

planned by the Outing Club for students staying at the Institute during the mid-term recess. Trips to Mrs. Rollins, in Gorham, or to Intervale are planned, but definite plans have not been announced.

The novice skiers will go on another trip led by Albert B. Root, '42, on Saturday, January 18. The trip, which will leave Walker steps at 12:30 P.M., will probably go to the Commonwealth Country Club.

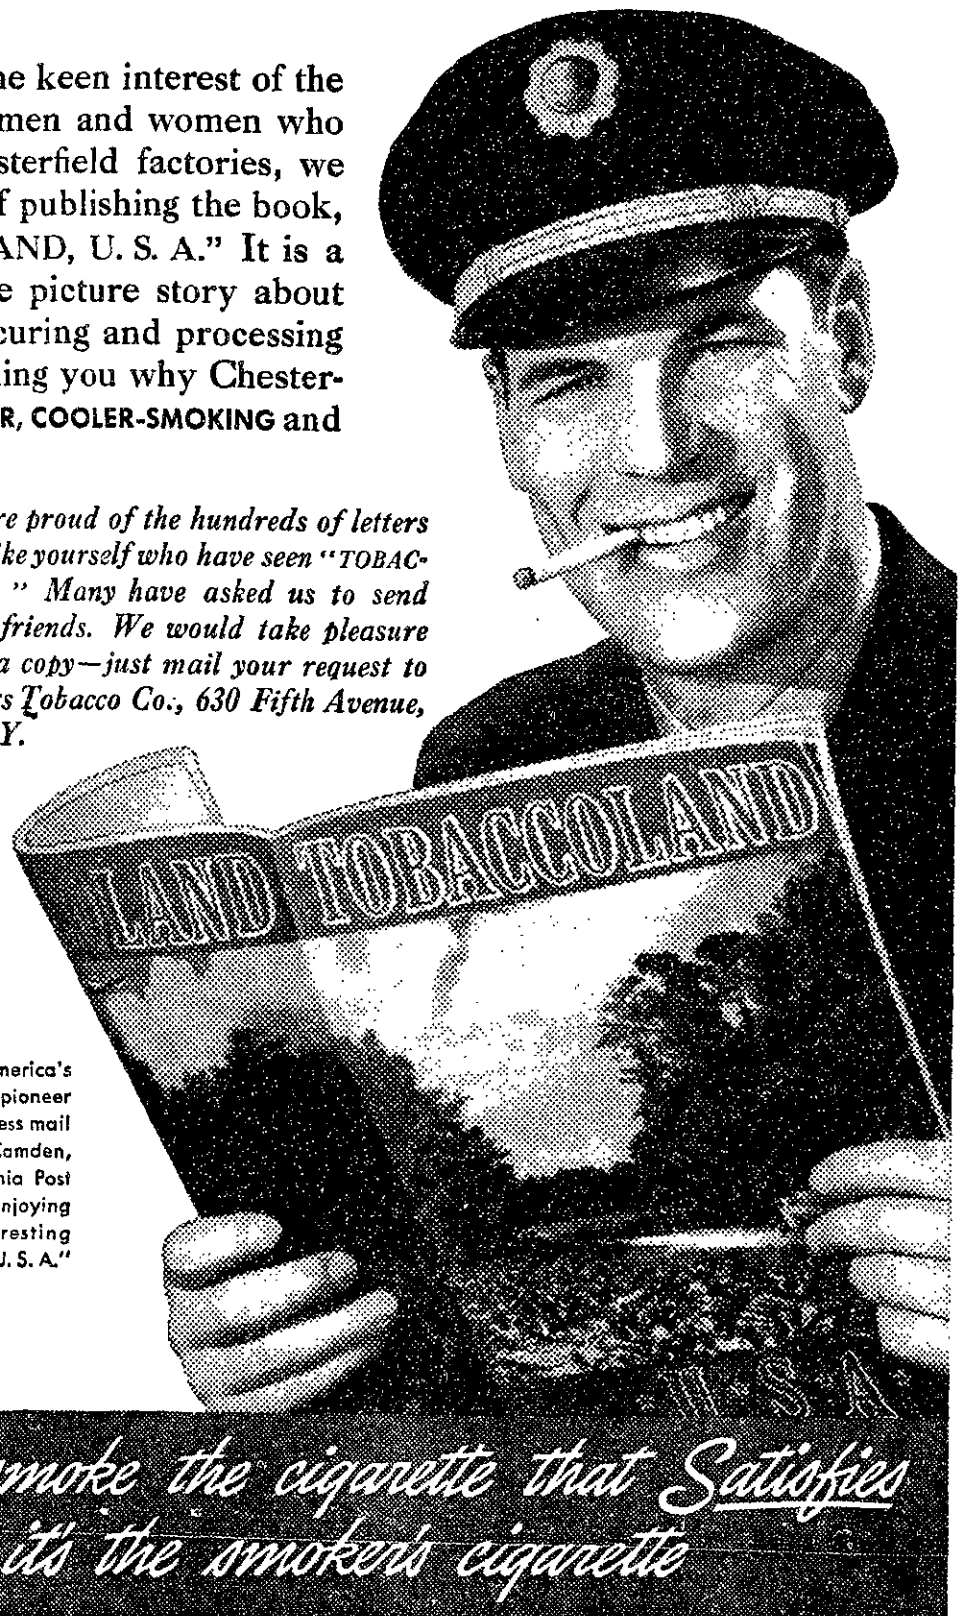

This book **TOBACCOLAND * U * S * A ***
gives thousands of smokers like yourself
the facts about tobacco and...

Chesterfield's

MILDER, BETTER TASTE

To the keen interest of the thousands of men and women who visit our Chesterfield factories, we owe the idea of publishing the book, "TOBACCOLAND, U. S. A." It is a comprehensive picture story about the growing, curing and processing of tobacco, telling you why Chesterfields are **MILDER, COOLER-SMOKING and BETTER-TASTING.**

We are proud of the hundreds of letters from smokers like yourself who have seen "TOBACCOLAND, U. S. A." Many have asked us to send copies to their friends. We would take pleasure in sending you a copy—just mail your request to Liggett & Myers Tobacco Co., 630 Fifth Avenue, New York, N. Y.

Capt. JOHN M. MILLER, America's No. 1 autogiro pilot and pioneer of the world's only wingless mail plane route between Camden, N. J. and the Philadelphia Post Office, is shown here enjoying Chesterfield's new interesting book "TOBACCOLAND U. S. A."

*Do you smoke the cigarette that Satisfies
...it's the smokers cigarette*
